

About my game:

- **Inspiration:** This game is called **BOOM**. The idea of making it when open you tube and see it logics. It is easy to make and you can play it with fun especially when the boom falls fast and faster. This game will help you to be good in escape from the terrible things.
- **Background:** If you want to play this game, you can press SPACE key first and then press LEFT key to move into left and press RIGHT key to move into right. About the sound I use BASS BOX and POP sound. This game has three booms and one girl. You have only three lives and the speed increase from -5 and the score start increasing when the speed is increasing.
