

MY AUTOBIOGRAPHY

My name is Hann Manich. I am 18 years old this year. My mother gave birth to me in May 15th, 2000 in Siem Reap Province. My favorite quote is "Life is very short, so break your silly egos, forgive quickly, believe slowly, love truly, laugh loudly and never avoid anything that makes you smile". I love this quote so much and I always keep it in my mind to release all of my dejected feeling. Just be happy, smile to the world and live my life. It gives me straight and powerful to have positive thinking. I can say I am "friendly", "unassuming" and "compassionate". I try to be friendly with other people and also try to talk a lot. I try to make fun all the time. My family especially my mom and my teachers influence my personal development. They provide me a lot of suggestions and advises. For me my life can't live without them because my life will fall down. I have a good relation with my family and my relatives also. When I communicate with them I use policy and nice words in the conversations. I try to help them and take care them everything as possible I can. My best memory when I was a child is I would play with all the children in my neighborhood. Once I remember that we played a lot of games in front of my house. It was full of joys. For my worth memory is when I was 4 years old I try to walked behind my sister to go to school but I got lost. I couldn't find the way back home. I was so scary and nervous. My goal for the future is to become a software engineer. The most important thing I have ever learn in my life is to think positive and live positive. I try to avoid from something that make me feel down and forlorn. The place that I prefer to visit is sea because I have never been there. If it possible, I want to go with my family and all of my relatives.
